

Murder Suspects Go On Trial Next Monday In Court

The three ex-convicts, accused of the slaying of Patrolman Glenn Carlson near here on November 15, will go on trial on first degree murder charges Monday in the Nevada County Superior Court.

District Attorney Harold Berliner is expected to ask for the death penalty, an amended complaint having been filed which adds "with prior felon convictions" to the original charge of first degree murder. Judge Vernon Stoll will preside at the trial.

Attorney Victor Huber will defend Clifford Toyce, Public Defender Leo Todd will be counsel for Roger M. Mealman, 29, who is alleged by police to have admitted the actual shooting of Carlson when he stopped the trio for questioning, and William Weatherall will defend the alleged leader of the trio, Robert Lee Burns.

The three, all ex-convicts from the Oregon prison at Salem, were arrested shortly after the shooting of the young officer and most of the \$44,000 loot taken in a Sacramento bank robbery a short time before, was found in their possession.

One of the trio, Toyce, was arrested by local sheriff's deputies in the Truckee Hotel and the others were apprehended as they stepped from a chartered plane at Sacramento after a flight from Reno.

Father Patrick Coffey officiated at a 10 o'clock Mass on Tuesday for Michele Bimbo, 74, who died January 12 at Nevada City, after a lengthy illness. Burial services followed in the local cemetery. Rosary was observed Monday at 8 o'clock.

The Truckee Colonial Mortuary was in charge of funeral arrangements.

Tahoe Resident To Observe 80th Date Of Birth Tuesday

TAHOE PARK — Friends and relatives from around the world are honoring a long time Tahoe Park resident this week on his 80th birthday.

Max Bretzfelder, who with his wife Lucy came here in 1941, was born January 21, 1884 in Bamberg, Germany. He served in the German army during World War I, practiced law, and later was appointed a judge in Munich until forced to flee Hitler Germany in 1936. He was educated at Geneva and Berlin and holds the equivalent of our doctorate of law.

Surviving members of his family throughout the world during the Nazi era, have sent greetings from East Berlin, West Germany, London, Buenos Aires and New York.

While serving as an assistant prosecuting attorney in Munich, Max helped prepare the people's case against Adolph Hitler after the abortive Beer Hall Putsch in 1923.

He was later appointed judge of the superior court of the Munich district where he served until his forced departure from Germany.

Max Bretzfelder has served as vice president for the Tahoe Park Association, and residents have become accustomed to his being the first in the lake for daily swimming in the spring and the last to be enjoying the quiet October waters.

A tennis enthusiast as well, Bretzfelder seldom misses a chance at doubles on the Tahoe Tavern Courts. Any good snow in winter brings him to the slopes of Squaw or Alpine Meadows. He never uses a lift.

Bretzfelder is a connoisseur of art and music and enjoys an extensive stamp collection. For the amusement of his family he has translated German poems and stories. He also writes poems in both languages.

To see him, one would not guess his 80 years, nor the extent of his personal involvement in the history of our times.

Electric Line Now Serves New Area

Work of installing a three-phase distribution line from near the state division of highways plant north to Prosser Lake Heights, a distance of one and a quarter miles, was completed last week by the Truckee Public Utility District.

Francis Longo, district manager, said the new line will serve customers in the new 410 acre subdivision developed by W. B. Layton and will also provide electric service to the water system in that area.

The work is part of the program being developed under the recently authorized \$367,000 REA loan from the government. The first home in the area was expected to be connected immediately, Longo said.

The next step in the expansion and improvement of the local electrical system will be construction of the proposed new substation, site preparation in the eastern part of town already having been started. Other projects to improve the service in various parts of the district are under consideration and will be underway during the spring months, Longo explained.

HOW THE NEW HOSPITAL WILL LOOK

Pictured above is the architect's conception of how the new Tahoe Forest Hospital will look if funds for construction are provided through passage of the bond issue at Tuesday's election. The new wing, tripling the size of the institution is shown in the foreground. Voters will decide the issue at the polls January 21.

One of the most important issues ever to face the voters of this region will be decided at the polls next Tuesday when they will be called upon to approve a \$1,150,000 bond issue to provide for expansion and improvement of the Tahoe Forest Hospital. To carry, the issue requires a two-thirds majority. In other words, two out of every three voters who go to the polls must cast a "yes" vote. This is a big margin and demands a big turnout. The importance of the issue has provoked more than passing interest and every qualified voter in the district, whether for or against the bonds, should go to the polls and thus provide a true answer to the question of whether this region is to have the improved facility or whether it must be content with the present small hospital.

The preliminary survey, which will be made as soon as weather conditions permit, will be made by Gillette and Harris, a Yuba City firm of engineers.

The survey will determine what steps will be necessary and what expense will be entailed in providing adequate sewer facilities for the area not presently served by the district. Costs of improvement will be borne by the area to be served. James McIver, board president, was in charge of the meeting.

Supervisor J. O. Anderson of Auburn, whose term also expires this year, said he would not be a candidate for re-election but instead would seek the post of judge of the Auburn Judicial District Court, opposing the incumbent, Wayne Wylie. Robert Norris, electrical contractor and Douglas Campbell, public relations man, said they would seek the supervisorial seat.

Expenditures For Hospital Project Are Told By Board

A summary of the proposed expenditures for expanding and modernizing the Tahoe Forest Hospital if the voters of the district approve a \$1,150,000 bond issue next Tuesday, was released this week by the governing board.

Total construction cost will approximate \$825,210. This item includes \$577,170 for new construction, \$33,800 for mechanical repairs and replacements, \$199,240 for remodeling the present structure, and \$15,000 for site development.

Equipment will cost \$72,800, with \$28,800 for Group I and \$44,000 for Group II and II equipment.

Architect fees, established by law, total \$66,645, while the inspection fees for the anticipated 18 months of construction will total \$12,600. Construction tests will cost \$2,500 and bond interest for the first year is estimated at \$50,000.

Legal fees, including election expense, attorney fees and bond preparation is set at \$25,000, with \$95,245 allowed for contingencies.

The bonds will provide for tripling the capacity of the hospital, remodeling the present facilities and providing for the natural increase in patient occupancy.

Facilities Planned
Passage of the bond issue will provide funds to triple the present footage of the hospital, Administrator John McGlade explained. At present there are 10,326 square feet of floor space in the hospital and when the expansion is completed there will be 32,936 square feet.

The plan calls for eight maternity beds, 14 new general beds, nine beds for pediatrics for a total of 31 new beds, plus the existing beds after remodeling of 15 for a total of 46. There are presently 21 beds.

Also on the program will be 12 bassinets and eight recovery room wheeled stretchers.

Other Facilities

Major improvements proposed include:

1. New major and minor surgery.
2. Separate delivery room.
3. New emergency treatment rooms.
4. New laboratory, with triple space.
5. Enlarged x-ray room.

Rates Advanced In State's Parks

Vacationers planning overnight camping trips to California state beaches and parks this year will face a schedule of increased fees—in some cases twice as high as last year.

The state park commission has had a long standing policy of a single \$1 camping fee for all parks and beaches. Studies have shown that this paid only about 25 percent of the cost of maintaining and operating the facilities.

The new schedule which took effect this month, would pay 33 percent of the cost and provides a scale from \$1 to \$2 per overnight camping, depending upon the facilities provided. A type A campground, including flush toilets, piped drinking water, hot showers, laundries, campsites with table, stove and cupboard and surfaced roads, would cost \$2 per auto per night.

Included in the type A camps in this area are the D. L. Bliss State Park, Emerald Bay State Park, Tahoe SRA and the Donner Memorial State Park.

FIRE DISTRICT WILL NAME COMMISSION

Two commissioners of the Truckee Fire District whose terms expire this year have indicated they will be candidates for re-election on April 7. They are N. F. Doley and Elden Tonini.

Providing no other candidates file for the positions, the two will be appointed by the board of supervisors and no election will be required. Nomination petitions are available from Earl Stice, secretary of the board.

Walter A. Loynd is the third member of the board.

FOUR SEEK DAMAGES IN LOCAL CAR CRASH

AUBURN — Personal injury suits on behalf of four persons injured in a traffic accident on Interstate 80 (Highway 40) eight miles west of Truckee a year ago were filed in superior court here last week.

The four said they were in a car that was struck by a vehicle driven by Enoch Beckley Quinn, January 5, 1963.

Plaintiff Cleo Wells is seeking \$15,000, and Jesse Williams, Herman Fritz and John Hendricks are demanding \$5,000 each.

In addition to Quinn, other defendants named were Jean E. Quinn and three Does.

BROWN OPPOSES AID TO SCHOOLS UNDER CURRENT TAX PLAN

SACRAMENTO — (CNS) — Governor Edmund G. Brown said he is opposed to making any increases in the level of state support of public schools until some reforms in taxation are accomplished—primarily a countywide school tax.

The governor was asked if he would ask for additional school support at the budget session of the legislature. The lawmakers boosted state support by \$25 million during 1963, with another \$25 million tagged as an increase for 1964.

"I'm not going to seek any additional school aid unless the legislature is willing to come up with some reform," Brown said. "The present situation of rich districts and poor districts is something that has to be settled, and it will never be settled as long as the state continues to pour additional money into inefficient political subdivisions."

During 1963, Brown, State Superintendent of Public Instruction Max Rafferty, the California teachers association and others favored the county-wide tax, which would provide for 60 cents for each \$100 assessed valuation for elementary schools and 50 cents for high

Rain, fog and shortened days of early darkness make the winter months especially hazardous for the pedestrian, warns the California State Automobile Association. The person on foot, hurrying to escape bad weather, is extremely vulnerable because he often fails to watch for oncoming traffic. And, because of poor visibility, motorists often have difficulty seeing the pedestrian as he dashes into the street.

Be extra alert in bad weather and instruct children to be extra careful in crossing streets on rainy, dark days.

A new safety poster illustrating the theme "Be Extra Alert in Bad Weather," is being distributed this month in California and Nevada as part of the regular monthly safety education program of the CSAA. The poster was a first prize winner in the American Automobile Association's national traffic safety poster contest and is being distributed by AAA motor clubs in many sections of the country.

schools. But it was rejected. Now Rafferty has called for \$75 million in additional state support but said he dropped the countywide feature because the senate would not approve it. The CTA reportedly will seek an additional \$100 million.

Brown said he is not willing to move without the countywide tax proposal. He said the unification of school districts is not moving ahead at the pace it should.

"Some of the school districts have been voting them (unifications) down because they want the luxury of their own little districts," Brown said. "Until some corrective measures are taken, I don't think the state should give any further money to these inequities that exist."

TIPS ARE GIVEN FOR SKIERS BY NATIONAL SKI PATROL SYSTEM

Going skiing this weekend?

Have fun, but take care to return home intact. More than 90 per cent of ski injuries are caused by poor physical condition, fatigue, and overconfidence in skiing ability, according to the National Ski Patrol System of America.

The first step in accident prevention is to get into sturdy physical condition and stay that way. Before the skiing season starts, loosen up your legs and thigh muscles. Trot and jog awhile each day. When you walk, take long strides with a definite kick-off on slightly bent legs. Other sports, such as canoeing, rowing, swimming, and water skiing, will contribute to the strength and flexibility of your arms, shoulders, and legs.

During the season, spend 10 minutes a day in deep knee bends, waist bends, and a few pushups. Walk on tip-toe is good exercise for ankles. To develop the thighs, sit on the edge of a table and straighten the legs slowly. When you are able to extend the legs without trembling, add two pounds of weight to each foot and continue the exercise. A simple home device for this added weight is to put canned goods in a pillow case. Increase the weight gradually until you can extend a weight of 35 to 40 pounds without a tremor. Maintain these daily exercises throughout the skiing season.

A skier who is tired is more susceptible to injury, because he tends to become careless and is more likely to lose control of his body's coordination. Get enough sleep before the trip and eat well. Most important, don't overdo it. If you are too tired or weak to brake or turn suddenly, you may become a casualty.

During your skiing weekend, meals should include food with high energy content. Don't skip meals. Munch on raisins or chocolate during the day to help keep your body supplied with sufficient energy.

It is imperative that the beginner receive ski instruction from someone who is thoroughly qualified to teach. If he tries to learn alone, he may teach himself bad position and posture habits, and he may develop techniques which expose himself and others to danger.

A few other tips: Ski with proper equipment. Watch snow conditions; there may be midday softening of the snow; and as the

PARTY BOSSISM IS RAPPED BY LEAKE

REDDING—"The evils of party bossism must never infect and corrupt government at any level in California," Paul Leake, Woodland editor and member of the state board of equalization, told the Northern California Supervisors and Assessors Associations at the close of their annual conference in Redding.

"We want no Huey Longs and no California versions of the old Tammany Hall," Leake added.

Commenting on the proposal that supervisors and assessors should be appointed instead of elected, Leake said: "It is my conviction that the people deserve the right to choose the individuals who tax and assess their property."

"In no blueprint remodeling the government should the people be bypassed. That would result in centralizing too much power in the office of the governor."

Leake warned: "No governor should be vested with a tyrant's power."

"We must maintain accountability to the citizens at the polls. No governor should be a tax czar. Louisiana had a sad experience with Huey Long as governor when he taxed his political adversaries out of business and made special concessions to his friends."

Leake said that it has been his observation that most supervisors and assessors do not permit political bias or prejudice to sway their judgment.

"An abortive effort was made in the last session of the legislature at Sacramento to put over a bill that would have pinned a party label on supervisors, assessors and other officials at the county and city level," Leake recalled. "Fortunately it got nowhere. We must see that it never gets anywhere in the future."

sun sets, trail conditions may change rapidly. Never ski alone—if you get hurt, a ski buddy can get help. Every skier should have an elementary knowledge of first aid.

Remember: Accidents rarely happen to the experienced skier because he keeps himself in good physical condition, he recognizes his own limitations, he keeps his skiing under control, he uses the proper equipment and keeps it in good repair, he has learned all the rules of safe skiing, and he knows how to handle the dangers found on the different types of trails.

HOSPITAL BOND ELECTION WHY YOU SHOULD VOTE NO!

A review of statistics in the 1963 Progress Report on hospitals for California, furnished by the State Department of Public Health reveals that three new 50 bed hospitals were recently built with an average cost of construction of \$18,439.00 per bed and an average cost of total project of \$21,070 per bed. These hospitals were Hartland General, Hazel Hawkins Memorial, and Wheeler Hospital.

The original cost of Tahoe Forest Hospital, total project, was \$383,243.00 for 21 beds capacity or \$18,250.00 per bed.

Why then should Tahoe Forest Hospital ask for \$1,150,000 to add only 25 beds (9 beds of which are in one ward and should reduce cost) at an average cost for total project of \$46,000 per bed.

This is an unnecessary waste of tax money and a hardship on all taxpayers in this district. Only your vote can veto this bond.

Please go out and vote January 21.

Jordan, of Incline Village; vice president, Mrs. Ed Black of Incline Beach; Mrs. Greg Engelhard of Incline Village was installed as treasurer and Mrs. Robert Dardis of Kings Beach, secretary. Friends of Mr. and Mrs. Guy

Michael, owners of the Christmas Tree on Mt. Rose, will be sorry to learn that Sampson, their pet lion, has died of cancer.

Sampson weighed almost 1,000 pounds and had been a family pet for more than five years, and was one of the largest lions in captivity. He would have been six years old March 27. He was obtained by the Michaels from a zoo in Colorado Springs when he was six weeks old and weighed ten pounds. He was an Egyptian desert lion. Sampson was the fourth lion owned by the Michaels and he will be missed by patrons as well as the Michaels.

Chester and Roberta Torgeson are recent newcomers to Tahoe Vista from San Diego. Chester has started his own sign service at Tahoe Vista. "Forest Signs" which will take care of all types of signs with free delivery to any part of Lake Tahoe and the Donner area. Designing, manufacturing and installing will be a part of the service.

The Torgesons welcomed a new son, Dana Carl, born December 12 at the Tahoe Forest Hospital at Truckee. They also have another son, Chandler Shane, 1½ years old.

John and Sophie Levra of Kings Beach returned home after a 1,300 mile trip. They visited son Robert and his family at Henderson, Nevada, at Christmas, and visited John's mother, Lena Levra at Ely. Had an overnight reunion with Mr. and Mrs. Wayne Gander at Garrison, Utah, friends they hadn't had the pleasure of seeing for 20 years. Weather was good during their trip which they enjoyed immensely.

Gwen and Dan McGrew and baby son, Scott, of Oakland, spent Christmas at the home of her parents, Willis and Ruth Mizner at Kings Beach.

The Tahoe Forest Hospital bond election will be held January 21. The bonds will provide funds for the expansion of the hospital, however, it will be two years before the new facilities would be available.

able to the community. At the present time the hospital has only one combined operating and delivery room.

Pre-election community meetings have been and are being held—one at Tahoe City last Wednesday, Soda Springs Donner Trail School, Thursday, Kings Beach on Tuesday and Thursday (tonight) at Truckee Elementary School. Mrs. Lee Baker is campaign chairman for the hospital auxiliary and has been distributing posters and brochures to the many volunteers who are helping to promote the bond issue.

Transportation and baby sitting service for election day were arranged and special phones will be installed to provide uninterrupted message service for both service. Dr. Gardiner Pier, a staff member of the hospital, answered questions by the campaign workers that they might know all the details of the election. Don't forget to vote.

What's doing?

Eighty-seven years ago one of the world's first broadcasts took place—and it wasn't over a radio. It happened November 5, 1877, when three telephones were placed on the stage of the San Francisco Grand Opera House and wires were strung to five locations in the city. The opera "Mignon" was clearly heard over a phone at each point.

Although this "broadcast" covered only a few city blocks, it amounted to one of the first steps telephone people took toward network communications. Nowadays, phone lines help bring you broadcasts and telecasts from all over the world.

A modern home Interphone system lets you take and make calls from different spots in the house, talk room-to-room, and even answer the doorbell.

Whether it's true or not, here is a story that shows a lady's ingenious use of the phone in ordering snap beans from a grocer. "Could you bring one to the phone?" she asked. "I want to make sure they're fresh."

The grocer did. "Now," she asked, "would you please break it?" He did, and she clearly heard the resounding pop. "Fine," said the lady, "send me three pounds." (I'll bet you, too, have found unusual uses for your phone, in addition to the everyday ways it saves you time and trouble.)

Clock fast? Watch slow? Check our time-of-day service. The number is listed in the front pages of your phone book.

This phone was so charred in a fire its dial had melted, and the customer had to use her other phone to make calls. But the damaged phone worked so well in receiving calls, she used it for four months before calling in to have it replaced.

This shows the toughness and reliability built into all our telephone equipment. But I do want to mention that if your telephone should ever need any kind of repair, give us a call.

Howard Hill, or another of our repairmen, will fix it fast—at no extra cost to you.

the night nobody showed up

Nobody missed you at the City Council Meeting that night—because there was no one there to miss you. It just happened you weren't the only one who found it inconvenient to come. Everybody, that night, had the same thought: "Let George do it!" And none of the Georges showed up! □ This imaginary situation is not at all far fetched. It happens, in part, at every town meeting—someone with a valuable opinion doesn't come. The missing opinion may be the one that would have started action on needed civic improvements, or killed a proposal you would like to see dropped. This important missing opinion might be yours. □ Your active interest in local government gives you the story behind the need for improved fire-fighting equipment, schools, water and sewage facilities, parks, streets, and other community facilities. □ Almost every important community asset is financed with money provided by municipal bonds. Bonds spread the cost over a long period to keep taxes at a reasonable level. And interest rates are decided by competitive bidding to get the lowest rate under prevailing bond market conditions. □ The Bank of America with associated dealers bids on virtually all state and municipal bonds offered for sale in the State. We have a very real interest—and confidence—in California communities like yours. Do you?

Children home alone, the youngest ones especially, would be helpless to escape if fire should strike while you're away.

This tragedy happens every day and actually is the cause of one out of every three child fire deaths.

Never leave small children alone. Even if it is necessary to leave the house for only a few minutes ask a neighbor to stay with the children. And whenever you must go out for a longer time, leave the children in the care of a baby sitter who not only has been told what to do in case of fire but who is also physically and mentally capable of carrying out such instructions.

March of Dimes Lends a Hand, To Silence Child's Tormentors

When Lori Nelson blew out the candles on her fourth-birthday cake recently, it seemed that every youngster her age in Rosalie, Neb., turned out for her party.

Only a few months before, the remarkably pretty child had been the butt of taunts and giggles from these same children. Lori was born with a rare birthmark—a thick, unsightly covering of hair extending from her right shoulder to mid-forearm. Instead of finding playmates among the other boys and girls, all she ever encountered were finger-pointers and name-caller.

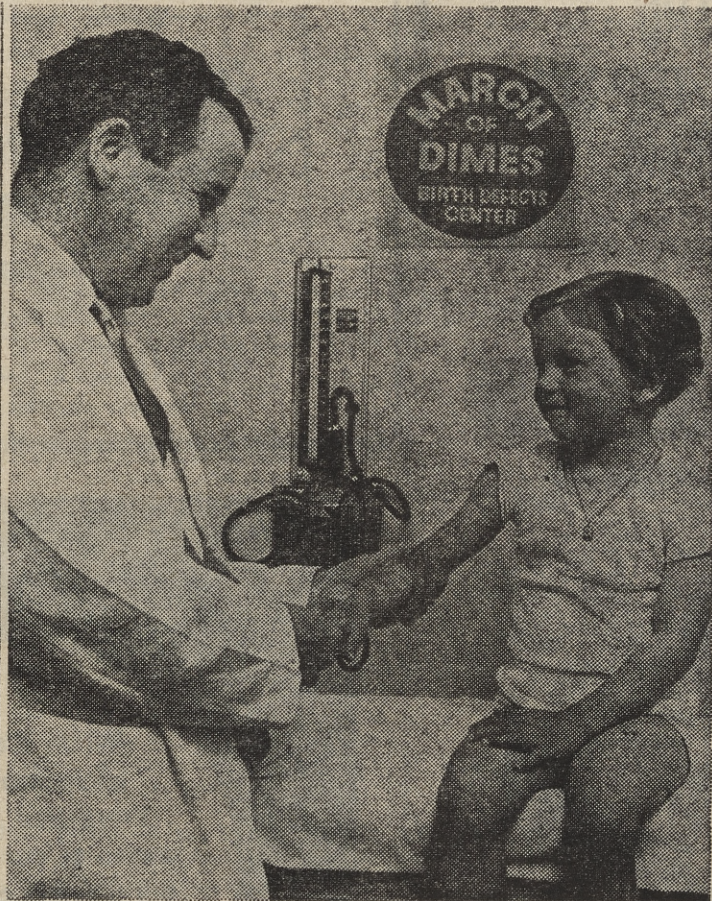

Lori found these gibes, when scarcely out of infancy and the crib, more than any sensitive child could endure. So did her parents, Marlene and Chester Nelson, an attractive farming couple, who for almost three years searched unsuccessfully for a medical answer to the problem.

Brother Also Heartsick

Also heartsick was David, 6, Lori's brother, who more than once came home with a black eye because he fought all the heartless kids in town who poked fun at his "hairy" sister. "Chester and I were almost out of our minds with this terrible affliction," the mother explained. "Lori, a frightened and confused little girl, withdrew into a shell. The present picture was painful enough, but my husband and I looked with dread into the future when our pretty child, like any young woman, would want to go to dances and have dates and fun and, in time, a husband and family.

"No one gave us any reason for hope. Then I read someplace that the March of Dimes was planning a birth defects center in Omaha. We were waiting at the door when it opened a year and a half ago."
 The center, supported by March of Dimes contributions from chapters throughout Nebraska, is at Children's Memorial Hospital and is directed by Dr. Theodore R. Pfundt, chairman of the pediatrics department of Creighton University School of Medicine. It is one of 48 such centers across the nation.

Dr. Pfundt consulted with Dr.

Lori Nelson, 4, after disfiguring hairy birthmark on right arm was removed. She's visiting with her surgeon, Dr. Albert S. Black, at March of Dimes Birth Defects Center, Children's Memorial Hospital, Omaha, Nebr.

Albert S. Black, a noted Omaha cosmetic surgeon, who is a "team member" of the March of Dimes-supported center and an associate professor of surgery at the University of Nebraska Medical School. He saw no reason for despair.
 Lori underwent four surgical procedures by Dr. Black. He removed the hairy surface of the right arm which was then replaced by grafts of skin from her right thigh.

Lori Now Carefree

"Essentially what we did," Dr. Black explains, "was to excise the cause of Lori's fears and torments, and restore a whole little girl to the carefree

world of children. The arm is still rather scarred, inevitably. But later on by high-speed planing and tattooing, the arm will be normal in appearance—and by the time she is in high school Lori will have difficulty remembering which arm exhibited this perverse quirk of nature."

Mrs. Nelson was selected as the Nebraska March of Dimes Mother for 1963. She and her husband have forgotten their fears about persuading their daughter to go to kindergarten. They confide that next summer, as a reward for her pluck, Lori may be riding around the farm aboard a Shetland pony.

Saturday night. Gordon Brown and Fred Schultz accompanied their wives on the trip.

Cocktail party followed by a buffet supper was hosted by Fred and Aysmae Schultz at their Tahoe

Vista home Thursday evening. Jumbo prawns, shelled crab meat and baked ham were the main features of the buffet which guests proclaimed delicious. Among those present were Messrs. and Mesdames Greg Engelhard, Leonard Bowser, Harry McIntire, Jack Farris, Robert Fugazi, Gordon Brown, Charles Platek, Harold Tiller, Rod Campbell, Alex Jeffries, Jim Warrington, Andy Creglow, George Sayre, Bill Montgomery, Joseph Crow, Carl Shaff, Robert Daneri, Mr James Bantrup, Mrs. Thomas Sutton, Mrs. Gwen Robinson and Mr. Arthur Wood.

Red and Mary Lou Waddell of Kings Beach had a most enjoyable holiday season with guests from various parts of the country—Mrs. Ruth Clark from Woodland Hills, Mr. and Mrs. Robert Smith from Pacific Palisades, Major and Mrs. E. T. Carlton of San Jose and Mrs. Mike Link from Whidby Island, Washington.

Mr. and Mrs. Mark Hurd of Alexandria, Minnesota visited her daughter, Nancy Clinton, and family at Kings Beach over the holidays. The Hurd family went on to Hawaii for a leisurely vacation before returning to Minnesota.

Women's Society of Christian Service met at the home of Mrs. Lyle Gunkel Wednesday. Present at the meeting were Eleanor Egan, Eda Judy, Marguerite Ashton, Ruth Mizner, Beth Smith and Noreen Marx. The rummage sale held at Tahoe Vista has been closed and the chairman, Pearl Draney, reports it a financial success. The February meeting of the group will be held at the home of Eleanor Egan at Crystal Bay.

A surprise potluck dinner was given Jack and Beverly Gregg of Kings Beach at the Kings Beach Methodist Community Church at Kings Beach Wednesday night, January 8. The Greggs are moving to Rancho Cordova due to Jack's transfer by the telephone company. Jack has been chairman of the finance committee while Beverly was treasurer, a member of the WSCS and a Sunday School teacher. The church and community will certainly miss their work in behalf of community projects.

Among those present were Ruth Mizner, V. Ann Mandeville, Lou Mills and sons, Dan and Louise Anderson, Frank and Eleanor Egan, Gene and Fran Thompson and sons, Bob Critchley and daughter, Kathy, Jack and Kay Felte, Dave and Marguerite Ashton, Jack and Jane Tennesen, Ray and Joy Plunkett, and Rev. and Mrs. William Marx.

The Greggs were presented with a set of Corning ware as a parting gift.

The Greater North Lake Tahoe Chamber of Commerce met at Olympic Village last Thursday with Fred Onorato as their host. President William Keller introduced Fred Barber of the county planning commission who discussed the sign regulations and asked the report of Wendall Russell of Tahoe City who is chairman of the committee locally. Mariyn Fugazi as chairman of civic affairs will also serve on the committee.

Due to heavy business schedule, Harold Tiller was placed on the advisory board and Jim McCourry elected as a director. Ralph Rausch was elected to the board to replace Dave Kelley.

Also present at the meeting were Supervisor Bill Briner, Velda Farris, Marilyn Fugazi, Al Burghardt, Harold Tiller, James McCourry, Jack Domergue, Bethel Van Tassel, Florence Brown, Art Gerber, Wendall Russell.

Rev. and Mrs. Chet Hamblin held a meeting at their home in Edgewood Park, Incline Beach for persons interested in starting a Presbyterian Church in that area. Rev. Hamblin was recently assigned to the area by the California Presbyterian Church Association, moving from Los Gatos.

The old park is on the beach and will be developed as a second beach for Incline Villagers and will have a swimming pool, tennis court and facilities comparable to those at Burnt Cedar Beach.

The new trailer park will be on the sewer and will be developed by Bill Anderson of Oakland, and John Uhalde and Robert McDonald of Reno who have acquired Ownership of the property. 140 spaces are planned with deluxe facilities, swimming pool and recreation area.

House and Home magazine published by Time-Life Corporation will carry an article in their February issue on Incline Village. This magazine is the national trade journal of the housing industry.

Letters to congress are needed according to AMHA to urge senators and congressmen to urge them to pass a new expense account law. Also to request them to oppose minimum wage coverage for our industries and to fight against tax on tip legislation. Support of the efforts by Senator Long and others to get the expense account law clarified as this is a crucial time.

It is by making one's attitude known now that further federal encroachment into private business matters may be prevented.

The first banks in San Francisco were mainly simple repositories for gold dust and specie left with them by miners.

DIVOT DIGGERS

By Georgiana King (Ponderosa Country Club)

Hi, Divot Diggers—Well, what do you know, I've got some golf news to tell you.

I talked with Liz Carroll and she told me that she saw Alex and Hazel Stewart at Reno the other day. Alex will be in charge of the Harrah's Golf Tournament again this year.

Charles and Liz Carroll and Ed Frates played in Reno a week ago Wednesday and they said the weather was just beautiful.

Last week Jim Walker went to the Mira Vista Country Club in Berkeley. He said the view while playing golf on the hills of the golf course was terrific. The hills overlook the valley.

Ed Frates and Bob Moore took off to Grass Valley last Saturday to play, what else, golf.

Then the following day Bob Moore took off again to Reno with Clarence Osburn and Johnny Walker and played at Washoe.

I'm sure getting itchy fingers to swing the ole club again, aren't you?

What ever happened to the invitation from Mr. Harrison of the Orville Golf Course? Remember I wrote an article about their inviting us to play as guests of theirs with green fees, dinner, etc. all paid for.

You know golf is an intriguing sport. As Ben Hogan puts it, "the yearning to play a better game of golf is a national mania in America. No man who golfs is so stubborn, so conceited, so arrogant or so accomplished that he is not constantly striving to improve his score. He may not admit this to

ALPINE GETS POWDER SNOW FROM STORM

ALPINE MEADOWS—This year's biggest storm unloaded 6 inches of new powder snow Monday night and set the stage for this week's first major races at Alpine Meadows, according to Tim Sullivan, Alpine's general manager.

The Bay Area Council of the Far West Ski Association will stage a Class A, B and C Giant Slalom race at 10:30 a. m. Saturday. The course will be set in Wolverine Bowl by Luggi Foeger, Alpine's ski school director. Walt Beardon is race chairman.

The Palo Alto Ski Club will put on its Eugenia Lary Class C Memorial Slalom at 11 a. m. Sunday in about the same area. More than 50 entries are expected for this event, according to Race Chairman Sally Brew.

Entries for both races will be accepted at the Alpine sports desk until 9:30 a. m. on the morning of the race.

others. He may pretend that mediocrity is enough for him. ("I shoot in the 90s and I have a lot of fun. That's good enough for me.") This man is telling a white lie and he knows it. He wants desperately to break 90 and when he does, he will want just as desperately to break 80. Let him shoot in the high 70s and he will have but one dream; par or better." Good ole golf.

One more little thing. As most of you know there will be a bond election January 21, the purpose of the bond issue being to alleviate the critical overcrowding of the Tahoe Forest Hospital. Just thought I'd mention it and remind you to all go out and vote next Tuesday.

Men and women drivers under the age of 25 representing only 15 per cent of the nation's licensed drivers account for more than 27 per cent of all non-fatal accidents.

DIRECTOR SELECTION EXPLAINED BY FUGAZI

Robert A. Fugazi, attorney for the Truckee Tahoe Airport District, this week announced a change in the selection of directors at the election scheduled for March 24.

In the past all five directors have been chosen at the same time for the same term, but at the forthcoming election three will be named for four years and two for two year terms. Those receiving the highest number of votes will have four year terms, the others will serve for two years.

Candidates must file nomination papers with Andrew H. Creighton, secretary of the district, before noon on Thursday, January 30.

made for a court and accompanying facilities. After some discussion and law research, he discovered methods for the present court.

In pointing to his record, Wilson said that when he took office in 1951, the revenue from fines, fees and other court income totaled \$12,997.50 for the year. During 1963, he said, the income totaled \$61,247.60. This he said does not indicate that fines are stiffer, but that the work load has increased materially.

The records reveal that in 1933, there was an income of \$448 from the Truckee court.

Showing the increase of work in the office, the records reveal that during 1963 there were 2,780 traffic cases alone handled in the Truckee court.

"In seeking a return to the office I now hold," Wilson declared, "I am pointing with pride to the record accomplished. Many other courts have copied our procedure here indicating the efficiency and thoroughness of our methods. If re-elected, it shall be my aim to continue and improve these methods. I have tried and will continue to try to be fair and impartial in my judgment and ask your support."
